NOTICE TO HOMEOWNERS: LOAD RESTRICTION REQUIREMENTS FOR SERVICE PROVIDERS

Dear Homeowners,

To ensure compliance and smooth operations, please convey the following to all service providers (e.g., delivery trucks, construction vehicles) entering the estate:

Important Delivery Requirements

As previously communicated:

- General deliveries must not exceed 15 (fifteen) tonnes
- Aggregates are limited to 10 cubic metres per load
- Only single differential trucks are permitted; double differentials are strictly prohibited.

☞ Ensure concrete mixing trucks and drilling-related logistics use compliant vehicles ☞ Avoid engaging suppliers who intend to use oversized or restricted heavy-duty trucks This is critical to prevent road damage, access disruption, and safety risks.

Management Committee:

C.J. Bhunu (Chairman), S. Chikwanha (Vice Chairman), L. Muzhara (Secretary), B. Munyoro (Treasurer), P. Mavhengere (Committee Member), T. Ganga (Committee Member), T.C. Tanhara (Committee Member)

Inform service providers:

Ensure they understand the estate's load restrictions before delivering goods or materials. These restrictions are in place to prevent road damage and ensure safety.

Seek clearance:

Advise service providers to obtain clearance or approval from the Estate Manager (or Gate Manager) regarding load limits before hiring them or allowing entry. This avoids violations or disapproval upon arrival.

Adhere to requirements:

Remind providers that compliance with load restrictions is mandatory.

Homeowner responsibility:

As homeowners, it is your duty to inform contractors/truck drivers about these rules to protect our estate infrastructure and maintain road conditions.

Consequences of non-compliance:

Violations may lead to road damage, safety hazards, or penalties for homeowners. **Our Estate, Our Home, Our Future** - let's protect our community by enforcing these guidelines.

Thank you for your cooperation.

Sincerely,

Lewis Muzhara Secretary
